

AAQIB MUSTAFA

BACKEND DEVELOPER

+92 300 5801212 | AAQIBMUSTAFAA@GMAIL.COM | LINKEDIN.COM/IN/AAQIBMUSTAFA
GITHUB: GITHUB.COM/AAQIBMUSTAFA

BACKGROUND

Backend Developer with 3+ years of experience building scalable, high performance backend systems and RESTful APIs using PHP, Laravel, and CodeIgniter. Specialized in MRP, ERP, and CRM solutions, with strong expertise in database optimization, secure API design (OAuth2, RBAC), and AI integration. Proven track record of delivering reliable enterprise applications for manufacturing, wellness, and corporate sectors in agile environments.

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

Gomal University, 2018 – 2023

- Relevant coursework: Data Structures and Algorithms, Database Systems, Software Engineering, Object-Oriented Programming, Web Development
- CGPA: 3.8/4.0

EXPERIENCE

HMB SOFTWARES PVT.LTD. | BACKEND DEVELOPER

Islamabad, PK , Sept 2023 – present

- Architect, develop, and maintain scalable backend applications using **PHP, Laravel, and CodeIgniter**, delivering secure and high-performance enterprise solutions.
- Design and implement **RESTful APIs** with OAuth2, JWT authentication, RBAC, API versioning, and secure integrations for web and mobile applications.
- Develop and manage complex business systems including **ERP, CRM, MRP, POS, HRM, Inventory Management, Accounting, and Multi-Warehouse Management** platforms.
- Design, optimize, and maintain **MySQL and MongoDB** databases through schema architecture, indexing strategies, query optimization, and performance tuning.
- Implement business logic, background jobs, scheduled tasks, caching mechanisms, and server-side validations to ensure reliability and scalability.
- Integrate third-party services such as **payment gateways, cloud platforms, AI services, SMS gateways, email services, and external APIs** to extend application capabilities.
- Collaborate with frontend and mobile development teams by providing secure, well-documented, and efficient backend services and APIs.
- Utilize **Git, GitHub, CI/CD workflows, and software development best practices** to deliver maintainable, secure, and high-quality backend solutions.

CODE STUDIO PVT. LTD. | JUNIOR PHP DEVELOPER

Islamabad, PK, Nov 2022 – Aug 2023

- Developed and maintained web applications using PHP & Laravel following MVC architecture best practices
- Built RESTful APIs and optimized database queries to improve application response times
- Debugged backend issues, resolved performance bottlenecks, and delivered clean code in collaborative Git workflows
- Gained strong fundamentals in backend architecture, API design, and team-based software development

SKILLS

- PHP (Core PHP, Laravel, CodeIgniter)
- Database Design & Optimization (MySQL, MongoDB, PostgreSQL)
- Version Control (Git, GitHub, GitLab)
- RESTful API Development & Integration
- MVC Architecture & Clean Code Practices
- API Testing Tools (Postman, Insomnia)
- API Security (OAuth2, JWT, RBAC)

KEY PROJECTS

HEALMINDBODY — AI-POWERED WELLNESS PLATFORM

- Built scalable RESTful APIs supporting web, Android & iOS for mental, emotional, and physical wellness features
- Developed backend APIs for meditation tracking, wellness journaling, and AI-driven personalized content delivery
- Delivered adaptive user experiences through AI service integration and data-driven recommendation logic

MRP SYSTEM — MANUFACTURING RESOURCE PLANNING

- Developed enterprise-grade MRP system integrating Inventory, POS, HRM & Accounting modules
- Implemented multi-warehouse stock management with real-time alerts and reporting dashboards

COSMOCHAT — AI CONTENT PLATFORM

- Built robust Laravel backend for an AI-powered content platform serving web and mobile users
- Developed secure, high-traffic APIs and integrated AI services for content generation and moderation

HOSTEL MANAGEMENT SYSTEM

- Developed full backend in CodeIgniter with web and mobile API support and admin dashboard with complete CRUD
- Designed optimized MySQL schema and implemented authentication, RBAC, and API validation from scratch

TAMIMI ATS — CORPORATE CMS

- Built Laravel-based CMS for managing projects, tenders, and corporate lead pipelines

CERTIFICATIONS

MASTER FULL-STACK LARAVEL WEB DEVELOPMENT

Board Infinity (2024)

JAVASCRIPT BASICS

UC Davis / Coursera (2024)

INTRODUCTION TO SQL

University of Michigan (2022)
